INSTORE SOLUTION FOR RINGS AND BRACELETS

COMPACT

- Footprint smaller than a magazine.
- Easy integration in small shops.
- Lightweight and portable.

CLEAN & SILENT

- Diamond engraving, clean and precise.
- Completely enclosed: easy cleaning.
- No rotating spindle so no noise.

EASY

- Completely enclosed : safe and maintenance free.
- Storage drawer for accessories.
- No technical knowledge required.

L x W x H: 230 x 293 x 290 mm
9 x 11.5 x 11.4 in

6.5 KG
14.3 lbs

BEST SELLING ROTARY ENGRAVING STATION

EASY-TO-USE

- Automatic height measurement and surface tracking.
- Positioning assistance: self-centering vice, Point & Shoot and engraving preview.
- Unobstructed access.

MODULAR

- Rotary devices for rings, cups and pens.
- Engrave on all materials.
- Many accessories available: jigs, chip collector, tablet, cutters, protective transparent cube, travel case, Dedicace™, etc.

STRONG

- New sturdy bridge design.
- Metallic parts and new stronger spindle.
- Made to last decades!

L x W x H: 375 x 350 x 360 mm
15 x 14 x 14 in

12 KG
26 lbs

INNOVATIVE MULTI-PROFILE JAWS

This device contains 3 jaws for internal and external engraving. Choose between the 4 colors to match the diameter and shape of the object to engrave. This unique Gravotech feature simplifies operation and your daily work.

DEEP ENGRAVING ON RINGS

This accessory adapts to ring diameters from 12 to 24 mm. It is designed to hold rings firmly in place and support the pressure created by deep engraving. Deep marking and repeat engraving passes are very clean and precise even on the hardest material.

DISCOVER NEW POSSIBILITIES

FAST

- Engrave a name in less than a second.
- Same laser to mark & cut.
- Limited training required.

SLEEK DESIGN

- 3 large windows for a great customer experience.
- Elegant design to attract curiosity.
- Maximum security - Class 1, no safety glasses required.

INTUITIVE

- No clamping needed.
- Easy settings and positioning.
- Compatible with every graphic/design software.

L x W x H: 450 x 560 x 610 mm
18 x 22 x 24 in

42 KG
92.6 lbs

BOOST YOUR PRODUCTIVITY

SMART

- Same laser to mark & cut.
- Combined circular and flat marking.
- Compatible with every graphic/design software.

CONVENIENT

- Touch screen.
- Automated door.
- Programmable: no risk of errors.

PRODUCTIVE

- Large working area: accommodates large objects and fixtures positioning multiple small items for production.
- Large marking area.
- Audible end of cycle alert.

L x W x H: 600 x 622 x 772 mm
23.6 x 24.5 x 30.3 in

60 KG
132.3 lbs

FOCUS ON METAL CUTTING

Expand your creative possibilities with our new wobbling cutting method. This spiral cutting mode can modulate the focus of the laser beam to cut more efficiently, thinner or thicker.
Available on WeLase and LW2

FOCUS ON LASER SOURCES

WeLase and LW2 are available with different laser sources, among which:
Fiber: Power and versatility for surface marking, deep engraving and cutting.
Hybrid & Green: Fine engraving which creates little dust (less or no cleaning required) and requires no finishing or treatment after the engraving. The marking can appear in different rendering possibilities, from black to white.

PILOT & DESIGN SOFTWARES

3D jewelry design software is 100% oriented to jewelers!

- Save time and efficiency with 3DESIGN.
- 100% dedicated to 3D jewelry design (organic modeling, realistic rendering...).
- Mac and PC compatible.
- Training, services, and associated support.

Simple engraving software for personalization and small signage

- Error free.
- Customer experience.
- No training required.

Unique CAD/CAM software to drive Gravotech machines

- Full use of the machine's capabilities
- Editing drawings, logos, photos: cut and 3D.
- Advanced functions to unleash your creativity!
